

NUTRITIONAL SOLUTIONS THAT HELP YOU MOVE FORWARD

ALEMA KOUDIJS FEED PLC (AKF) IS A PROFESSIONAL ANIMAL FEED PRODUCTION COMPANY AND THE MOST MODERN IN ETHIOPIA. AKF IS A JOINT VENTURE WITH DE HEUS ANIMAL NUTRITION FROM THE NETHERLANDS.

Founded in the Netherlands, De Heus is active in animal nutrition for over 100 years and has factories all over the world. AKF benefits from this partnership using all knowledge De Heus gained in the past century.

Ethiopia is one of the countries which has the largest number of livestock in the world because of this Beef fattening is a major and common business in Ethiopia. Most of the beef fatteners use Borena breed for fattening. The meat from Borana cattle found in Ethiopia is very much appreciated by Ethiopians but also in export markets.

**WE HAVE THE RIGHT FEEDS TO GROW YOUR CATTLE IN A FAST AND PROFITABLE WAY.
WE OFFER YOU THE FOLLOWING FEED TYPES:**

- ▶ Calf Rearing Feed Pellet
 - ▶ Beef Fattening Feed BASIC
 - ▶ Beef Fattening Feed SUPER
-

CALF REARING PELLETT

If you grow your cattle from calf stage, you should start with calf rearing pellet. This feed contains high levels of energy, protein, vitamins and minerals for the best growth and development of your calf. It will give your calf a fast and healthy growth, ready to become a good bull. Feed 3 kg per day with unlimited water and roughage.

After calf rearing pellet, or if you start fattening with mature bulls, we offer you two feed types, depending on your target and situation.

BEEF FATTENING FEED BASIC

Beef Basic Feed is the ideal feed for farmers who are fattening on small or medium scale, or do seasonal fattening. Beef Fattening Feed BASIC should be feed as a complete feed means 3% of the body weight or 8-10kg per day, together with roughage. It contains the right amount and balance of nutrients to grow beef cattle in an efficient way. If you are a small, medium or seasonal fattener; Beef Fattening Feed BASIC is the right feed for you!

BEEF FATTENING FEED SUPER

Beef Fattening Feed Super is the right feed for fatteners who are looking to fatten their animals to the highest weight in the shortest time. The short fattening period, makes it possible to do more cycles per year. This feed contains balanced and high levels of nutrients to make a high weight yield in a short time possible. Besides this, the feed contains a premix with vitamins, minerals and trace elements. What makes this feed more unique, is the fact that it has a growth promoter; 'Monensin'. Due to this growth promoter, the feed conversion is improving. For the same amount of growth, you need less feed!

ESPECIALLY MANY CATTLE EXPORTERS APPRECIATE THE BEEF FATTENING SUPER FEED;

- The customers appreciate the better tender meat quality
- The fatterer reaches a higher weight within short time
- Due to the shorter fattening period, the fatterer can have more cycles in a year

'Mixing the Beef Fattening Super Feed from Alema Koudijs Feed PLC gives me a higher weight within the same days of fattening. My customers appreciate the extra tender and lean meat'.

- ATO GEZEHAGN, AND ATO GIRMA LIVESTOCK EXPORTER FROM ADAMA

'Since I started using beef super feed, my bulls have been growing much faster. I was really surprised by the progress I have made, and I can sell my bulls much earlier. Due to the shorter period, I also use less quintals of feed'.

- ATO ENDALE, LIVESTOCK FATTENER

Based on the target and situation of the farmer, Beef Fattening Super Feed can be used as a complete feed or as a supplement.

BEEF FATTENING FEED SUPER AS A COMPLETE FEED

If you looking for the shortest time to produce a high weight bull, use the Beef Fattening Super Feed as a complete feed. Feed 3% of body weight or 8-10 kg per bull per day, in combination with unlimited roughage and water.

BEEF FATTENING FEED SUPER AS A SUPPLEMENT

If you are looking for fast growth, but you have access to other raw materials; use the Beef Fattening Feed Super as a supplement; feed minimum 3-4 kg per bull per day. Add other raw materials which you can get. Lastly, always provide unlimited roughage and water.

TOOLS FOR SUCCESSFUL BEEF FATTENING;

- Use Alema Koudijs Feed concentrate
- Give enough shade space for the animal to hide for the sun
- Make sure there is always fresh water available, unlimited!
- Make sure there is always roughage available, unlimited!
- Have a soft bedding (sand or straw), to make the bulls comfortable
- Do the proper vaccinations
